SPECIAL SIZES and DESIGNS

Polyester - Vinyl

WITH SQUARE CORNERS OR DIE CUT DESIGNS MADE TO ORDER.

CHROME POLYESTER - A rich chrome-colored film with pressure sensitive back. Weatherproof, resists oil, grease, solvents, and acids. 2 mils thick.

GOLD CHROME POLYESTER* - Same as Chrome, but in beautiful metallic Gold finish.

BRUSHED CHROME POLYESTER* - A matte chrome-colored pressure sensitive film with a grained look. Weatherproof, resists oil, grease, solvents, and acids. 2 mils thick.

CLEAR POLYESTER - A transparent film with pressure sensitive back. Also chemical resistant and weatherproof. Replaces water-applied decals. 2 mils.

VINYL - A plastic material with pressure sensitive back. Highly recommended for outdoor use on heavier equipment. White or yellow material. 4 mils thick.

STATIC-CLING VINYL - A flexible clear material specifically for use on glass and designed for inside-window application only. This material holds on clean, dry glass without messy adhesive for a crystal-clear look. 7 mils.

*Prices are for one color imprint on specified material.
Prices are for squares and rectangles with square corners.
Add lower Die Cutting prices for special shapes.
Multiply width by length to get square inch area of decal.*
